Professional Summary:

Software Engineer with hands-on experience in web, mobile, and RESTful API development, SQL/NoSQL database management, and software testing. Quality-driven with a commitment to continuous learning, seeking opportunities as a Software Engineer (Entry-Level / Level I), Frontend Developer, or Backend Developer.

Technical Skills:

- **Languages & Frameworks:** C++, C#, Java, JavaScript, TypeScript, React, Python, Kotlin, HTML, CSS, .NET, WPF, WCF, Node.js, Express.js, Astro, Vanilla.js, TailwindCSS, Next.js, PHP.
- **Databases:** MySQL, SQL Server, PostgreSQL, MongoDB, Google Firestore.
- **Tools & Platforms:** Git, Figma, WordPress, Jira, Trello, Slack, Docker, Jenkins, Apache, Nginx, Vagrant, Postman, Swagger, Selenium, Microsoft Office Suite.
- **Methodologies & Standards:** Scrum, Waterfall, ICONIX, WAE, ISO/IEC 27005, ISO 29119-1, IEEE Std 1012-2016.

Relevant Experience:

Tarjeta Más Juventud – H. Ayuntamiento de Xalapa (Node.js / HTML5 / CSS3 / SQL Server) **Feb 2026 – May 2026**

- Co-designed and developed the "Tarjeta Más Juventud" web platform using the ICONIX methodology, targeted at local youth to access commercial discounts across local participating businesses.
- Authored the vision and scope document, software architecture specification, and test plans following ISO 29119-1 standards.

ChatBot Institucional – Instituto de Pensiones del Estado de Veracruz (C# / Node.js / SQL Server) **Ago 2025 – Feb 2026**

- Co-designed and upgraded an existing institutional ChatBot using the ICONIX methodology, enhancing process efficiency, usability, and clarity for digital services targeted at beneficiaries.
- Analyzed and implemented system architecture improvements, database optimizations, and core development processes to build a scalable and robust platform.

Hangman – Desktop Application (C# / WPF / WCF / SQL Server) **Feb 2025 – Jun 2025**

- Designed and developed a Client-Server Hangman game featuring real-time communication via TCP/IP sockets and asynchronous callbacks.
- Utilized Entity Framework for efficient data persistence, significantly reducing connection and logic errors during system testing.

Wang: Inmuebles a tu alcance – Aplicación Web (Node.js / HTML5 / CSS3 / SQL Server) **Feb 2025 – Jun 2025**

- Implemented a real-estate web application powered by a RESTful API, automating property and user management to streamline overall workflow efficiency.
- Performed rigorous API endpoint testing using Postman to validate request/response payloads in JSON format.
- Deployed the database on the SOME platform and integrated accessibility standards (WCAG 2.4.7 Focus Visible, WCAG 1.4.3 Contrast Minimum, and WCAG 1.4.4 Resize Text) to ensure an inclusive user experience.

Education:

Universidad Veracruzana - Xalapa-Enríquez, Veracruz, México **Aug 2021 – Aug 2026**

B.S. in Software Engineering

C.B.T.I.s. 165 “Leona Vicario” - Coatepec, Veracruz, México **Aug 2018 – Jun 2021**

Technical High School Diploma in Electronics

Languages:

Spanish: Native

English: Intermediate (B2)

French: Basic (A2)
